## Presentation

We are pleased to present the Canadian Association for Graduate Studies' (CAGS) 37<sup>th</sup> *Statistical Report*. The report provides data on enrolment and graduation at the graduate levels from 1992 to 2005. The report was produced from data submitted to Statistics Canada by Canadian universities.

1. All frequencies are randomly rounded to a multiple of 3 using the following procedure:
  - a. Frequencies which are a multiple of 3 are not adjusted.
  - b. Frequencies one greater than a multiple of 3 are adjusted to the lower multiple of 3 with a probability of two-thirds and to the upper multiple of 3 with a probability of one-third. The probabilities are reversed for the frequencies one less than a multiple of 3.
2. The data are subject to revision.
3. a. Historical data coded with the University Student Information System (USIS) Field of Study (MFS) classification has been converted to the Classification of Instructional Programs (CIP) 2000.  
b. For Quebec institutions, the Classification of Instructional Programs (CIP) 2000 codes assigned to programs are under review.  
c. For some institutions in Alberta, the Classification of Instructional Programs (CIP) 2000 codes assigned to programs are under review.
4. "Other graduate level" includes master's qualifying year, university graduate level certificate or diploma, Ph.D. (Doctor of Philosophy) qualifying year or probationary, internship (Postgraduate Medical Education known as post-M.D.) and residency (medical, dental, veterinary).
5. Figures may not add up because of the exclusion of the "sex unknown" category in the table or because of rounding.
6. Count of enrolments for 2004-2005 has increased because the replacement of estimated counts with actual data for Royal Roads University.
7. Counts of university degrees, diplomas and certificates granted for 2004 has increased because the addition of counts for Royal Roads University.
8. New institution added to the survey in 2005-2006 reporting enrolment and added to the survey in 2005 reporting university degrees, diplomas and certificates granted: Thompson Rivers University.
9. 2005-2006 enrolments and 2005 university degrees, diplomas and certificates granted for University of Regina are not available.

The tables provide the following information on enrolment between 1992 and 2005:

- Enrolment at the Master's and Ph.D. levels, and in other graduate programs, by university and disciplinary field.
- Women enrolment at the Master's and Ph.D. levels, and in other graduate programs, by university and disciplinary field.
- Non-Canadian enrolment at the Master's and Ph.D. levels, and in other graduate programs, by university and disciplinary field.
- Full-time and part-time enrolment at the Master's and Ph.D. levels, and in other graduate programs, by disciplinary field.

The tables provide the following information on degrees awarded between 1992 and 2005:

- Master's and Ph.D. degrees awarded, by university and disciplinary field.
- Master's and Ph.D. degrees awarded to women, by university and disciplinary field.
- Master's and Ph.D. degrees awarded to international students, by university and disciplinary field. With the exception of the most recent years, discrepancies may be found between the data in this report and the data of earlier reports. These discrepancies are the result of differences in the reporting methods of certain universities. Prudence should therefore be used when making long term comparisons.

The disciplinary fields used in this report are those defined by Statistics Canada in ESIS/PSIS. Likewise, international students for the agency are those students who are neither citizens of Canada, nor landed immigrants in Canada.

We would like to thank Ms. Marie Burton of Statistics Canada for her invaluable cooperation in producing the data for this report. We also want to express our appreciation to Pascal Lemelin,

---

Marie-Claude Laframboise and Nicolas Bastien from the *Observatoire* for their help in producing the html version of the report.

Comments or suggestions to improve this report would be most welcome.
