Presentation

We are pleased to present the Canadian Association for Graduate Studies' (CAGS) 38th *Statistical Report* on enrolments and degrees awarded at the graduate levels from 1995 to 2006. The report was produced from data submitted to Statistics Canada by Canadian universities.

Please consider the following notes for all data in this report where all frequencies are randomly rounded to a multiple of 3 using the following procedure:

- a) Frequencies that are multiples of 3 are not rounded.
- b) Frequencies one greater than a multiple of 3 are adjusted to the lower multiple of 3 with a probability of two-thirds and to the upper multiple of 3 with a probability of one-third.
- c) Probabilities are reversed for the frequencies one less than a multiple of 3.
- d) A zero may indicates a frequency of 1 or 2, while the absence of data corresponds to a true zero.

In this 38th *Statistical Report* we added more detailed data on enrolment and degrees awarded in other graduate programs. Also, we added enrolment data for Canada broken down by main disciplinary fields and disciplinary fields according to the classification established by Statistics Canada.

Enrolment data covers the 1995-2006 period, except for data on disciplinary fields; which begins in 1999:

- Enrolment in Master's, Doctorate and other graduate programs in Canada, broken down by university, by main disciplinary field and by disciplinary field.
- Women enrolment in Master's, Doctorate and other graduate programs in Canada, broken down by university, by main disciplinary field and by disciplinary field.
- Enrolment of international students in Master's, Doctorate and other graduate programs in Canada, broken down by university, by main disciplinary field and by disciplinary field.
- Enrolment in full and part-time Master's, Doctorate and other graduate programs in Canada, by main disciplinary field.

Data on degrees awarded covers the 1995-2006 period:

- Degrees awarded in Master's, Doctorate and other graduate programs in Canada, broken down by university, by main disciplinary field and by disciplinary field.
- Degrees awarded to women in Master's, Doctorate and other graduate programs in Canada, broken down by university, by main disciplinary field and by disciplinary field.
- Degrees awarded to international students in Master's and Doctorate programs in Canada, broken down by university and by main disciplinary field.

- Except for the last few years, the data shows variations due to changes in the frequencies reported to Statistics Canada by some institutions. The historical series should then be interpreted with extreme caution.

The classification by main disciplinary field and by disciplinary field used in this report is defined by Statistics Canada in their new system. The "international students" are also defined by Statistics Canada as students who are not Canadian citizens or landed immigrants.

Finally, we added two innovations to this year's report: first, we took the data on enrolments in Master's and Doctorate degrees in Canada since 1972¹ presented in the 2001 report and we extended some longitudinal series. Second, we added a summary at the beginning of each section.

We would like to thank Ms. Marie Burton of Statistics Canada for her invaluable cooperation in producing the data for this report. Mr. Pascal Lemelin, research professional at the *Observatoire des sciences et des technologies* (OST), has made a significant contribution to the achievement of this report, including, among others, the HTML version of the report. He was assisted in this work by Mrs. Marie-Claude Laframboise, UQAM student and intern at OST who is responsible for the graphics and tables.

We recompiled the majority of the tables published in July 2009 following a major correction for an institution received in October from Statistics Canada.

Comments or suggestions to improve this report would be most welcome.

Jean Lebel²
 Associate professor, UQAM,
 Director, Observatoire des sciences et des technologies,

² Jean Lebel is also director general of the *Association des doyens des études supérieures au Québec*, ADÉSAQ.

Notes

- All frequencies are randomly rounded to a multiple of 3 using the following procedure: frequencies that are multiples of 3 are not adjusted; frequencies one greater than a multiple of 3 are adjusted on the next lowest multiple of 3 with a probability of two-thirds and the next highest multiple of 3 with a probability of one-third. The probabilities are reversed for frequencies one less than a multiple of 3.
- The data is subject to revision.
- "Other graduate level" includes master's qualifying year, university graduate level certificate or diploma, Ph.D. (Doctor of Philosophy) qualifying year or probationary, internship (Postgraduate Medical Education known as post-M.D.) and residency (medical, dental, veterinary).The sum of figures may not match exactly to totals due to exclusion of the category "sex not stated" or to rounding.
- For Quebec's and Alberta's institutions along with Thompson River University and the University of Northern British Columbia, the codes of the 2000 Classification of Instructional Programs (CIP) allocated to programs are subject to revision for 2006.
- For Quebec's institutions, Brandon University, U. of Winnipeg, U. of British Columbia, U. of Northern British Columbia and Simon Fraser University: field of study have been updated for 2000 to 2005.
- Frequencies for degrees, diplomas and certificates awarded by the University of Regina in 2005 and 2006 are not available.
- Minor changes in methodology affected the totals for the years 2000 to 2005 for some institutions: 7 universities for enrolment only, 2 universities for degrees awarded only (all the changes is more or less than 2%) and 1 university for the enrolment and degrees awarded (an increase of at most 5%).
- For Quebec, data on awarded degrees doesn't include micro programs and study attestation.
- Degrees awarded in 2004 for the University of Alberta are preliminary estimates and should be updated for the next report.
- University enrolments frequencies of 2005 and 2006 for the University of Regina are not available.
- University enrolments frequencies of 2006 for the University of British Columbia are provisory.

An historical view: Attendance to Master's and Doctorate programs in Canadian universities since 1972

CAGS' annual statistical report is built using data collected annually from universities and processed by Statistics Canada. Previously, the person in charge of the report obtained information directly from the Association's member universities and colleges, with all the validation work and the risk of errors and omissions inherent to the task. Nonetheless, in 2001, I searched the old reports and collected data to measure the progress made to attendance in Master's and Doctorate programs in Canada since 1972. Ten years of data have been added since that report. It seemed appropriate to me to examine the evolution of enrolment over a longer period: from 1972 to 2006: 35 years of data!

In 1972, Canadian universities as a whole regrouped 33,170 Master's students and 13,484 Doctorate students. Women accounted for 26.8% of Master's student and 19.5% of Doctorate's. Three and a half decades later, there are 95,784 enrolments in a Master's programs, of which 54.4% are women and 38,337 Doctorate: women accounting for 46.2% of all students.

Figure 1 : Master's Enrolment

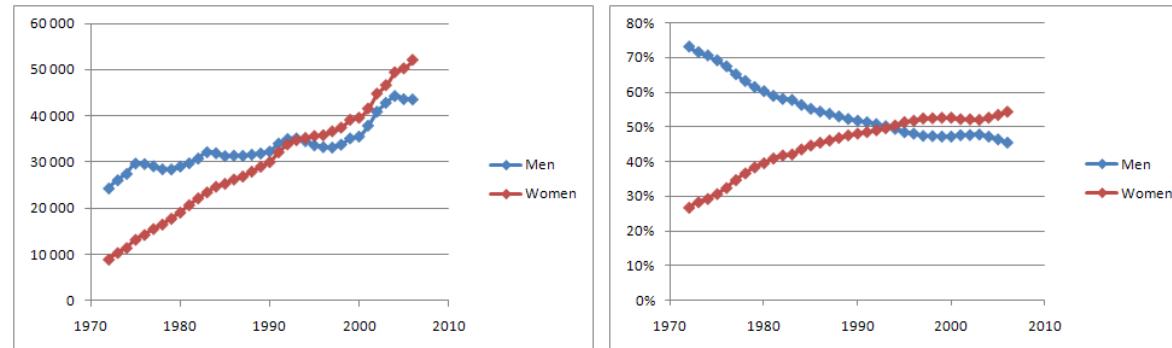

Figure 1 shows the important and almost constant growth of women's enrolment at the Master's level: in average, about 1,270 enrolments per year, while men's enrolment grew by an average of 570. In 1994, women's enrolment exceeded men's, followed by a period of weaker growth but resuming its original pace in 2002. One can also see that variations in men's enrolment seem to vary in waves, perhaps because it is more sensible to economic or political conjuncture. After 2001, men's enrolment increased at a rate similar to the women, but came to an abrupt stop in 2005. Consequently, the woman / man ratio is more or less stable since 1996 at 52% / 48%, but the gap slightly increased in 2005 and 2006.

Figure 2 : Doctorate Enrolment

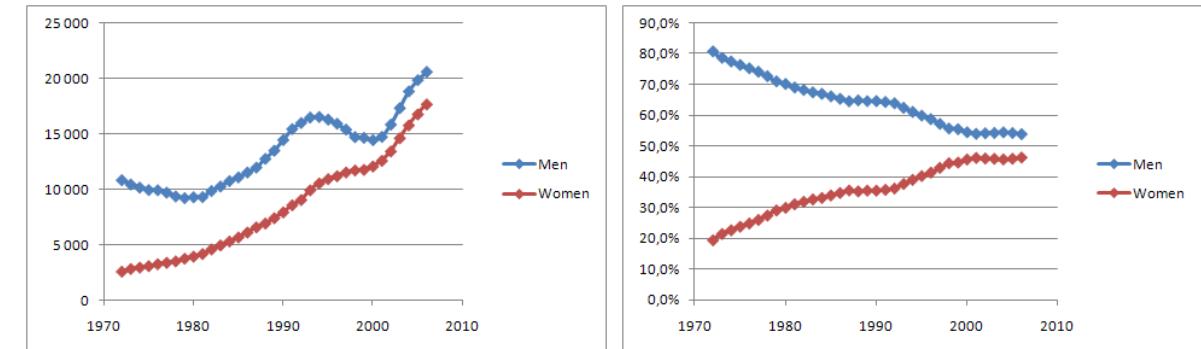

Figure 2 illustrates the growth of Doctorate enrolment in Canadian universities. In 1972, there were 13,484 enrolments, of which 19.5% were women. In 2006, there were 38,337 enrolments and 46.2% of them were women. Ten years ago, extrapolation suggested that women's enrolment at the Doctorate level would meet men's in 2003, but it did not happen: men's enrolment showed an impressive growth from 2001 to 2005, maintaining the women / men ratio around 46% / 54%. Like enrolments at the Master's level, one can also note the important fluctuations in the number of men enrolled at the Doctorate level, especially in the 90s, which reflect slightly on the progress of women over Doctorate enrolment. Perhaps enrolment at the Doctorate level is more sensitive to political and economic environment?

As in the 2001 report, we compared our statistics with those from the Council of Graduate Schools (CGS) in the USA. However, their statistics are not broken down by academic level and report only the number of "graduated" students. We also compared total enrolment at the Master's and Doctorate's level in Canadian universities.

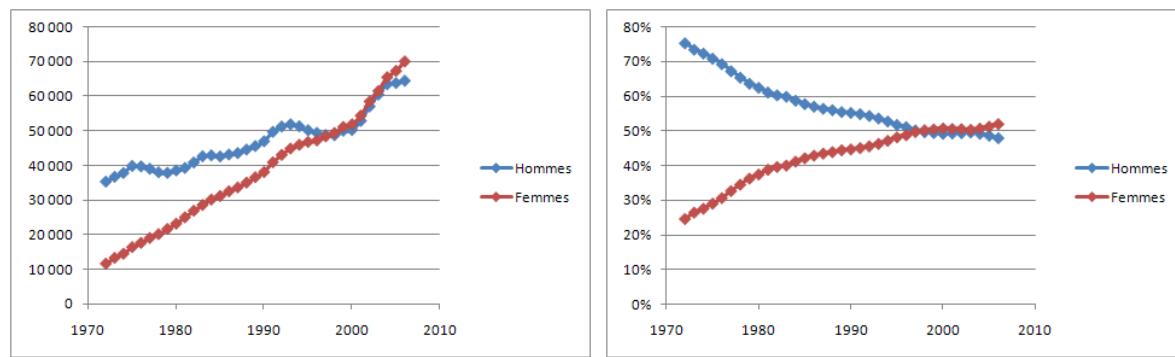

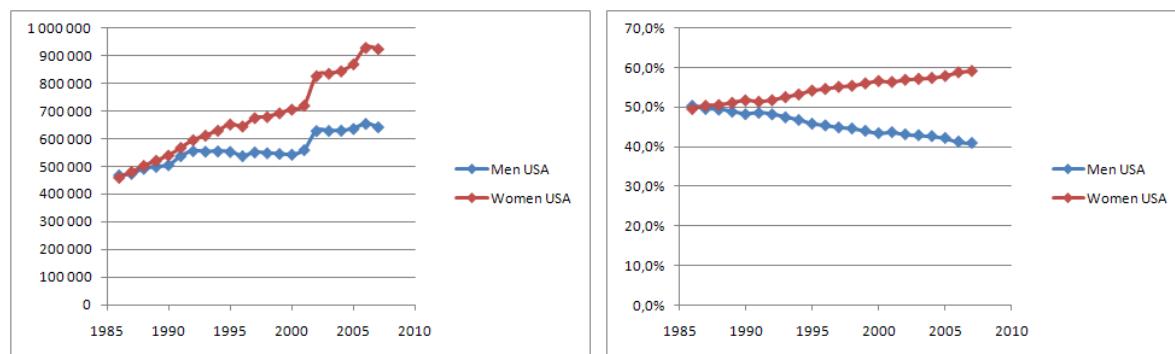

Figure 3 : Master's and Doctorate Enrolment in Canadian Universities

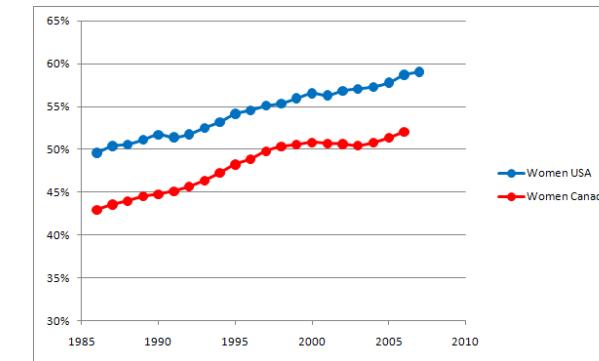

Figure 3 shows that women's enrolment at the Master's and Ph.D. levels increased seven-fold between 1972 and 2006 while men's has not completely doubled in the same period. Overall, it was in 1998 that women outnumbered men at the Master's and Doctorate's level.

Figure 4 : Enrolment in Graduate Studies in American Universities

In Figure 4, one first notes that American data starts in 1985. Since data is obtained directly from universities by CGS, frequencies may vary slightly from year to year but it usually does not affect the overall pattern. However, at this moment, we have no explanation for the sudden rise observed in 2002. In 2006, more than a million and a half American students pursued studies at the Master's

and Doctorate's level. Also, women's enrolment in the USA shows an increase of 102% over the 1985 to 2006 period, while in Canada it increased by 122%. For men, over the same period, the growth in enrolment is 40% in the USA compared to 50% in Canada.

Since 1987, women constitute a majority in these programs and the gap is increasing: in 2006, the women / men ratio is 59% / 41%. In fact, despite the parity observed in 1987, enrolment growth is mainly due to an increasingly important female presence.

Figure 5 : Proportion of Women at the Master's and Doctorate level in USA and Canada

As shown in Figure 5, the proportion of women at the Master's and Doctorate level in the U.S. continues to increase even if it is about 8 percentage points higher than women's enrolment in Canada. We can therefore believe that in Canada, women's presence in graduate studies will continue to grow for many years.

Graduate Enrolment

Summary Section 1: Enrolment

- There were 95,823 enrolment in Master's degree in 2006, an increase of 1.9% over the previous year and 38.3% compared to 1995.
- The institution with the largest number of enrolment in the Master's degree is the University of Toronto with 7,203.
- The University of Prince Edward Island presents the highest growth in the number of enrolment (> 200 total enrolment) in Master's degree, a growth equivalent to 127% the 2005 value.
- The "Business, Management and Public Management" is the disciplinary field with the largest number of enrolment: 21,828, while "Arts and Communications" shows the highest growth with 9.5%.
- There were 38,346 enrolment in Doctorate degree in 2006, an increase of 4.5% over the previous year and 40.4% compared to 1995.
- The institution with the largest number of enrolment in the Doctorate degree is the University of Toronto with 5,112 enrolment.
- The Ryerson University presents the highest growth in the number of enrolment (> 100 total enrolment) in Doctorate degree, a growth equivalent to 54.5% the 2005 value.
- The "Physical and Life Science" is the disciplinary field with the largest number of enrolment in Doctorate degree: 8,499, while "Social Sciences" shows the highest growth with 5.9%.

Summary Section 2: Men and Women Enrolment

- There were 52,113 women enrolment in Master's degree in 2006, an increase of 3.7% over the previous year and 46.3% compared to 1995.
- Women enrolment in Master's degree represent a proportion of 54.4% of total enrolment in 2006.
- The institution with the largest number of women enrolment in the Master's degree is the University of Toronto with 4,248.
- The University of Prince Edward Island presents the highest growth in the number of women enrolment (> 200 total enrolment) in Master's degree, a growth equivalent to 150% the 2005 value.
- With 81.2%, Mount St. Vincent University is the institution where women enrolment in Master's degree has the highest proportion.
- The "Business, Management and Public Management" is the disciplinary field with the largest number of women enrolment: 9,852, while "Arts and Communications" shows the highest growth with 9.7%.
- The field "Health and Fitness" shows the highest proportion of women enrolment in Master's degree with 78.2%.
- There were 17,721 women enrolment in Doctorate degree in 2006, an increase of 5.4% over the previous year and 61.3% compared to 1995.
- Women enrolment in Doctorate degree represent a proportion of 46.2% of total enrolment in 2006.
- The institution with the largest number of women enrolment in the Doctorate degree is the University of Toronto with 2,649 enrolment.
- The École de technologie supérieure (ÉTS) and the Ryerson University presents the highest growth in the number of women enrolment (> 100 total enrolment) in Doctorate degree, a growth equivalent to 50.0% the 2005 value.
- The Wilfrid Laurier University is the institution with the highest proportion of women enrolment in Doctorate degree with 63.0%.
- The "Social Sciences" is the disciplinary field with the largest number of women enrolment: 4,656, while the field "Physical and Life Sciences" is showing the highest growth with 7.5% compared to 2005.
- The field "Education" shows the highest proportion of women enrolment in Doctorate degree with 69.5%.
- There were 43,671 men enrolment in Master's degree in 2006, a decrease of 0.1% over the previous year and increase of 29.7% compared to 1995.
- Men enrolment in Master's degree represent a proportion of 45.6% of total enrolment in 2006.
- The institution with the largest number of men enrolment in the Master's degree is the Université de Montréal with 2,979.
- The Ryerson University presents the highest growth in the number of men enrolment (> 200 total enrolment) in Master's degree, a growth equivalent to 35.4% the 2005 value.
- With 88.8%, the Académie militaire royale du Canada is the institution where men enrolment in Master's degree has the highest proportion.
- The field "Engineering and Architecture" shows the highest proportion of men enrolment in Master's degree with 71.8%.
- There were 20,616 men enrolment in Doctorate degree in 2006, a increase of 3.7% over the previous year and increase of 26.3% compared to 1995.
- Men enrolment in Doctorate degree represent a proportion of 53.8% of total enrolment in 2006.
- The Institut national de la recherche scientifique (INRS) presents the highest growth in the number of men enrolment (> 100 total enrolment) in Doctorate degree, a growth equivalent to 15.4% the 2005 value.
- The École de technologie supérieure (ÉTS) is the institution with the highest proportion of men enrolment in Doctorate degree with 82.4%.
- The field "Engineering and Architecture" shows the highest proportion of men enrolment in Doctorate degree with 80.3%.

Summary Section 3: International Graduate Enrolment

- There were 12,870 international enrolment in Master's degree in 2006, a decrease of 1.4% over the previous year and an increase of 134% compared to 1995.
- International enrolment in Master's degree represent a proportion of 13.4% of total enrolment in 2006.
- The institution with the largest number of international enrolment in the Master's degree is the University of British Columbia with 1,056.
- The Royal Roads University is the institution with the highest proportion of international Master's degree with 45.0%.
- The Université de Moncton presents the highest growth in the number of international enrolment (> 200 total enrolment and > 50 international enrolment) in Master's degree, a growth equivalent to 71% the 2005 value.
- The "Business, Management and Public Management" is the disciplinary field with the largest number of international enrolment: 3,933, while "Arts and Communications" shows the highest growth with 24.0% over 2005.
- The field "Mathematics and Computer" shows the highest proportion of international enrolment in Master's degree with 23.2%.
- There were 7,749 international enrolment in Doctorate degree in 2006, a decrease of 0.7% over the previous year and an increase of 35.7% compared to 1995.
- International enrolment in Doctorate degree represent a proportion of 20.2% of total enrolment in 2006, nearly the same as 1995 with 20.9%.
- The institution with the largest number of international enrolment in the Doctorate degree is the University of Toronto with 972 enrolment (19%).
- The University of Saskatchewan is the institution with the highest proportion of international enrolment in Doctorate degree with 34.6%.
- The University of Windsor presents the highest growth in the number of international enrolment (> 100 total enrolment and > 25 international enrolment) in Doctorate degree, a growth equivalent to 50.0% the 2005 value.
- "Engineering and Architecture" is the disciplinary field with the largest number of international enrolment: 1,911, while "Education" shows the highest growth with 17.1%.
- The field "Mathematics and Computer" shows the highest proportion of international enrolment in Doctorate degree with 32.2%

Degrees Awarded

Summary Section 5: Degrees Awarded

- There were 34,107 Master's degrees awarded in 2006, an increase of 3.4% over the previous year and 59.7% compared to 1995 (12 750 degrees awarded).
- The institution with the largest number of Master's degrees awarded is the University of Toronto with 3,267 degrees awarded.
- The Université du Québec à Chicoutimi (UQAC) presents the highest growth in the number of Master's degrees awarded (> 200 total degrees awarded) with an increase equivalent to 133% in 2005 value (from 207 to 483 degrees awarded).
- "Business, Management and Public Management" is the discipline with the largest number of Master's degrees awarded: 9,630, while "Arts and Communications" shows the highest growth (> 100 total degrees awarded) with 8.8%.
- There were 4,449 Doctorate degrees awarded in 2006, an increase of 5.9% over the previous year and 19.7% compared to 1995 (732 degrees awarded).
- The institution has the largest number of Doctorate degrees awarded is the University of Toronto with 657 degrees awarded.
- The University of Alberta shows the highest growth in the number of Doctorate degrees awarded (> 100 total degrees awarded) with a growth equivalent to 61.2% in value of 2005 (201 to 324).
- "Physical and Life Science" is the disciplinary field with the largest number of Doctorate degrees awarded with 1,161, while "Business, Management and Public Management" shows the highest growth with 27.3%.

Summary Section 6: Men and Women Degrees Awarded

- There were 18,051 Master's degrees awarded to women in 2006, an increase of 5.8% over the previous year and 67.7% compared to 1995.
- Master's degrees awarded to women represent a proportion of 52.9% of total Master's degrees awarded in 2006.
- The "Business, Management and Public Management" is the disciplinary field with the largest number of Master's degrees awarded to women: 4,176, while "Education" shows the highest growth with 12.5%.
- The field "Health and Fitness" shows the highest proportion of Master's degrees awarded to women with 78.3%.
- There were 1,932 Doctorate degrees awarded to women in 2006, an increase of 4.5% over the previous year and 66.0% compared to 1995.
- Doctorate degrees awarded to women represent a proportion of 43.4% of total Master's degrees awarded in 2006.
- The "Social Sciences" is the disciplinary field with the largest number of Doctorate degrees awarded to women: 465, while "Arts and Communications" shows the highest growth with 18.2%.
- The field "Education" shows the highest proportion of Doctorate degrees awarded to women with 72.4%.
- There were 16,050 Master's degrees awarded to men in 2006, an increase of 0.8% over the previous year and 51.5% compared to 1995.
- Master's degrees awarded to men represent a proportion of 47.1% of total Master's degrees awarded in 2006.
- There were 2,520 Doctorate degrees awarded to men in 2006, an increase of 7.1% over the previous year and a decrease of 1.2% compared to 1995.
- Doctorate degrees awarded to men represent a proportion of 56.6% of total Master's degrees awarded in 2006.

Summary Section 7: Degrees Awarded to International Students

- There were 5,199 Master's degrees awarded to international students in 2006, an increase of 12.8% over the previous year and 226% compared to 1995.
- Master's degrees awarded to international students represent a proportion of 15.2% of total Master's degrees awarded in 2006.
- The institution with the largest number of Master's degrees awarded to international students is the Royal Roads University with 489 degrees awarded.
- The "Business, Management and Public Management" is the disciplinary field with the largest number of Master's degrees awarded to international students: 2,208 and has with "Natural Resources" the highest growth with 26.5%.
- There were 612 Doctorate degrees awarded to international students in 2006, an increase of 4.1% over the previous year and a decrease of 1.4% compared to 1995.
- Doctorate degrees awarded to international students represent a proportion of 13.8% of total Doctorate degrees awarded in 2006.
- The institution with the largest number of Master's degrees awarded to international students is the University of Toronto with 72 degrees awarded.
- The "Physical and Life Sciences" is the disciplinary field with the largest number of Doctorate degrees awarded to international students: 138, while "Mathematics and Computer" shows the highest growth with 80.0%.
