Presentation

Again this year, this edition of CAGS Statistical Report on enrolments and graduations at the masters' and doctoral (Ph.D.) levels in Canadian institutions has been produced by the *Observatoire des sciences et des technologies* (OST). The data for this report is from Statistics Canada's Postsecondary Student Information System (PSIS), based on information transmitted by the universities themselves.

Please consider the following notes for all data in this report, namely that all frequencies are randomly rounded to a multiple of 3 using the following procedure:

- a) The frequencies that are multiples of 3 are not rounded.
- b) The frequencies that are greater than one to a multiple of 3 are adjusted to a multiple of 3 with a probability of less than two-thirds higher multiple of 3 with a probability of one third.
- c) The probabilities are reversed in the case of lower frequencies from one to a multiple of 3.

Also, a zero (0) indicates a value of 1 or 2 when no input corresponds to a true zero.

This 40th Report presents some changes; among others things, we were unable to prepare some tables included in previous reports: statistics on enrolments and graduations in graduate programs other than master's or doctoral (Ph.D.) are absent from this report because Statistics Canada implemented a new data structure for 2009 that does not readily allow the computation of this graduate level and, with the rounding of the frequencies, it was impossible for us to produce valid statistics. As a matter of fact, Statistics Canada has modified, for its most recent data release, its classification of instructional programs (CIP) and has gathered its data using two different surveys (USIS and PSIS). This affects the 2009 data at the level of the main disciplinary fields and disciplinary fields, making any comparison with the rest of the data (2000-2008) hazardous. Moreover, this change has created confusion among academic institutions; some transmitting their data through the old survey, making the information useless.

To these facts were added other, more technical changes in the various codes and fields of the database, that have generated extra work for the staff of the Observatoire. The production of the statistical report necessitated dozens of technical emails and telephone conversations.

We thank Mrs. Isabelle Ménard and Mr. Paul Bourgeois from Statistics Canada for their collaboration in the production of the data for the 40th report. Pascal Lemelin and Marie-Claude Laframboise, professional at OST, provided the main contribution in the realization of this report. We are indebted to these people for the presented figures and charts.

We invite you to send us your comments and suggestions for improving this report.

Jean Lebel¹, Ph.D.
Associate Professor, UQAM
Director, Observatoire des sciences et des technologies
ost@uqam.ca

October 2012

¹ Jean Lebel is also the director of ADÉSAQ, the *Association des doyens des études supérieures au Québec*.

Methodological Notes

The following notes are from Statistics Canada

- All counts are randomly rounded to a multiple of 3 using the following procedure: counts which are already a multiple of 3 are not adjusted; counts one greater than a multiple of 3 are adjusted to the next lowest multiple of 3 with a probability of two-thirds and to the next highest multiple of 3 with a probability of one-third. The probabilities are reversed for counts that are one less than a multiple of 3.
- The data are subject to revision.
- Figures may not add up because of the exclusion of the "sex unknown" category in the table or because of rounding.
- Historical data coded with the University Student Information System (USIS) and the Community College Student Information System (CCSIS) have been converted to the Classification of Instructional Programs (CIP) 2000.
- The enrolment count represents the number of student programs up to December 1st, 2009 and represents a snapshot up to this date.
- Up to 2008/2009 for enrolments and up to 2008 for graduates, the count excludes students enrolled in programs related to pre-employment, apprenticeship, basic training or skills upgrading, second language training, job readiness or orientation programs. However, there is an exception for four institutions (College of the North Atlantic - Newfoundland and Labrador (2006, 2007 and 2008); Lambton College of Applied Arts and Technology - Ontario (2007 and 2008); University of Manitoba - Manitoba (2007 and 2008); and Northern Alberta Institute of Technology - Alberta (2008). These institutions have revised their data for the years indicated and because of processing system limitations, these institutions now have these programs included in their enrolment and graduate counts. As of 2009, graduate count includes these programs but still excludes apprenticeship programs.
- In May 2007, Alliance University College and Canadian Nazarene University College merged to become Ambrose University College. From a historical perspective, the enrolments and qualifications awarded at Ambrose University College should be compared to the combined counts of enrolments or qualifications awarded of Alliance and Canadian Nazarene University Colleges.
- The following institutions were added to the survey frame. For year 2000/2001: McDonald Campus, University McGill (Quebec); Collège dans la cité de la villa Sainte-Marcelline (Quebec); and Cégep régional de Lanaudière à Terrebonne (Quebec); for year 2001/2002: Collège Mother House (Quebec); for year 2005/2006: École de sténographie judiciaire (Quebec); Regional Colleges (Saskatchewan); and Okanagan College (the college provides the college activities of the Okanagan University College, British Columbia); for year 2008/2009 : Great Plains Regional College (Saskatchewan).
- Due to a revision of the institutions in the survey, the following are not included as of 2008/2009 for enrolments and 2008 for graduates: in New Brunswick, Bethany Bible College; in Ontario, Institut de pastorale des Dominicains, Tyndale University College and Seminary, Redeemer University College, Royal Military College of Canada; in Alberta, Newman Theological College; in British Columbia, Regent College, Vancouver School of Theology, Trinity Western University, and Seminary of Christ the King.
- For University of Saskatchewan, residency enrolments in the health-related programs are not included as of 2008/2009 for enrolments and 2008 for graduates.
- For University of Saskatchewan, the definition of full-time and part-time has changed. The registration status for enrolments as of 2008/2009 refers to the September to December period. In the previous years, it referred to the September to April period.
- The following institutions, previously colleges, changed to university status. As of 2002/2003 reporting year: Ontario College of Art and Design (Ontario); as of 2004/2005 reporting year: Alberta College of Art and Design (Alberta); as of 2005/2006 reporting year: University College of the Cariboo and Open Learning Agency (British Columbia); as of 2008/2009 reporting year: Capilano College, Malaspina University College, Emily Carr Institute of Art and Design, Kwantlen University College and University College of the Fraser Valley (British Columbia); as of 2009/2010 reporting year: Grant McEwan University and Mount Royal University (Alberta).
- The following institutions do not have their data included in the released data. For years 1999/2000 to 2009/2010: Justice Institute of British Columbia (British Columbia); as of 2000/2001: Ontario Schools of Radiation Therapy (Ontario)
- The following institutions closed. In year 2001/2002: Collège des Grands Lacs (Ontario); in year 2002/2003: Collège de Lévis (Quebec); in year 2004/2005: Collège Français (Quebec).
- The following institutions have their parchments delivered by a university. Starting in year 1999/2000: Western Regional School of Nursing (Memorial University, Newfoundland and Labrador); starting in year 2002/2003: School of Radiological Technology (University of New Brunswick, New Brunswick).

- Starting with 2006/2007 enrolments and 2007 graduates, counts for Augustana Faculty are included in the University of Alberta figures.
- The enrolments for the Institut de pastorale des Dominicains were removed from the 2006/2007 and 2007/2008 data.
- From 2005 to 2008, the enrolments and graduates for the University of Regina are not available.
- Enrolments and graduates from institutions that are not funded by provincial ministries of education are no longer included in the survey. These are, starting in 2005/2006: School of Radiation Therapy at Cancer Care Manitoba and Health Sciences Centre, School of Cytotechnology (Manitoba); starting in 2008/2009: School of Radiation Therapy, Allan Blair Cancer Centre; Radiation Therapy Program, Saskatoon Cancer Centre (Saskatchewan); Canadian Coast Guard College (Nova Scotia); Niagara Parks Commission School of Horticulture; Michener Institute; and Canadian Memorial Chiropractic College (Ontario); Cross Cancer Institute, School of Radiation Therapy; and Tom Baker Cancer Centre, School of Radiation Therapy (Alberta).
- The following institutions were amalgamated with other institutions. For the year 1999/2000 only, the Multicollege de l'ouest du Québec (Quebec) was reporting enrolments for students enrolled in colleges located outside the west Québec region. For year 2000/2001: Queen Elizabeth Hospital School of Radiography (University of Prince Edward Island, Prince Edward Island); Cape Breton University, Technology Campus (University of Cape Breton, Nova Scotia); and Queen Elizabeth II, Medical Schools (Dalhousie University, Nova Scotia); for year 2001/2002: Saint John School of Radiation Therapy (University of New Brunswick, New Brunswick); and Eastern Ontario School of X-ray (Queen's University, Ontario); for year 2002/2003: Schools of Radiation Therapy (The Michener Institute for Applied Health Sciences, Ontario); for year 2004/2005: Collège de l'Acadie (Université Sainte-Anne, New Brunswick) and Fairview College (Northern Alberta Institute of Technology, Alberta); for year 2005/2006: Okanagan University College (the undergraduate and graduate activities are reported with the Okanagan campus, University of British Columbia, British Columbia); for year 2008/2009: Cypress Hills Regional College and Prairie West Regional College (Great Plains College, Saskatchewan).
- As of 2009, the college graduate counts are released for the calendar year to align with how the university graduates are reported. For 2008 and prior years, college graduates were released based on an academic year. Because of the transition of how graduates are calculated from 2008 to 2009, some graduates released in 2009 may have also been released with the 2008 college graduate data.
- The graduate counts for the Quebec institutions up to and including 2008 do not include micro programs and attestations however, as of 2009, these are included.
- In 2009 the Program Level and Credential type code sets were modified and due to this change all historical data (2008 and prior) was updated to be in line with these updates.
- Starting in 2009/2010 a new dissemination code set was created called the Pan-Canadian Student Classification of Education (PCSCE) which maps the Program type (i.e. Undergraduate programs, post graduate programs etc) and Credential type (example, certificates, diplomas, degrees etc) to this new code.
- The Pan-Canadian Student Classification of Education (PCSCE) is a statistical classification for use in the collection and analysis of data on educational activity and the resulting qualifications into aggregate categories that can be compared and interpreted at both national and international levels. The basic units of classification in PCSCE are the educational program (program type) and the related recognized educational qualification (credential type).
- The College graduates in Saskatchewan are under review.

The following notes are added by OST

- The country of permanent residency is the country of the permanent address, as declared by the student on his application form.
- The province of permanent residency is the province of the permanent address, as declared by the student on his application form.
- For the tables presenting statistics by main disciplinary field and disciplinary field, data from 2008 has been copied in 2009 in lieu of the original 2009 data after Statistics Canada informed us of some problems with the automatic codification of instructional programs affecting the 2009 data. All other variables are not affected by this problem. This problem has the following consequences (not visible in the report):
 - o The 2009 data by main disciplinary field and disciplinary field for Carleton University is incorrect.
 - o Ryerson University doesn't show any data in 2009.

- o As a consequence of this change in the survey format, it is not recommended to compare the data on instructional programs (CIP codes) between the 1992-2008 period and 2009.
- For the 2009 data, Ontario's institutions (except the University of Western Ontario) reported their data through the PSIS survey instead of the USIS; affecting the disciplinary distribution.
- Some programs, classified under « Graduate program (second cycle) » and « Graduate program (third cycle) » in the USIS survey are now classified under «Health-related residency program » in the new PSIS.
- For this release of the data, Statistics Canada modified its PSIS survey to add and link together two new variables: the type of program and the type of credential, thus replacing the program level variable. These changes explain the minor variations that would be seen by comparing the 39th and 40th edition of the Statistical Report. Moreover, these changes now make the calculation of the “Other Graduate Studies” level impossible: therefore, this level is not showed in the present report.

Graduate Enrolment

Summary Section 1: Enrolment

- In 2009, 108,057 students enrolled in a Master's degree; an increase of 4.5% over the previous year and of 42.6% compared to 2000.
- In 2009, the institution with the largest enrolment at the Master's level is the University of Toronto with 8,817 students.
- The University of Ontario - Institute of Technology presents the highest enrolment growth (> 200 enrolment total) at the Master's level; a growth equivalent to 98.1% of the 2008 value.
- In 2009, 45,273 students enrolled in a Doctorate degree, an increase of 5.5% over the previous year and of 70.1% compared to 2000.
- In 2009, the University of Toronto is the institution with the largest enrolment at the Doctorate level with 5,841 students.
- Brock University presents the highest growth in enrolment (> 100 enrolment total) at the Doctorate level; a growth of 20.0% from its 2008 value.

Table 1: Graduate Enrolment in Canada, 2000-2009

	Master's			Doctorate			Total		
	n	Δ	Δ (%)	n	Δ	Δ (%)	n	Δ	Δ (%)
2000	75 771			26 619			102 390		
2001	80 175	4 404	5,8%	27 486	867	3,3%	107 661	5 271	5,1%
2002	86 664	6 489	8,1%	29 481	1 995	7,3%	116 145	8 484	7,9%

**The data presented for 2009 is a copy of the 2008 data. See the methodological note for more information.*

Summary Section 2: Men and Women Enrolment

- There were 60,048 women enrolling in a Master's degree in 2009, an increase of 4.1% over the previous year and of 50.4% compared to 2000.
- Women account for 55.6% of all enrolments at the Master's level in 2009.
- In 2009, the University of Toronto has the largest number of women enrolled at the Master's level with 5,280 women.
- With a growth equivalent to 53.2% of the 2008 value, the University of Lethbridge shows the highest growth in 2009 in women enrolment (> 200 enrolment total) at the Master's level.
- The institution presenting the largest proportion of women at the Master's level in 2009 is the Mount St. Vincent University where women account for 82.9% of total enrolment (> 200 enrolment total).
- For men, the University of Ontario - Institute of Technology presents the highest growth in men enrolment (> 200 enrolment total) at the Master's level, a growth equivalent to 40.0% of the 2008 value.
- The École de technologie supérieure is the institution where the proportion of men enrolling at the Master's level in 2009 is the highest at 83.7%.
- 21,198 women enrolled in a Doctorate degree in 2009, an increase of 5.5% over the previous year and of 74.6% compared to 2000.
- Women account for 46.8% of all enrolments at the doctorate level in 2009.
- The institution with the largest women enrolment in a Doctorate degree in 2008 is the University of Toronto with 2,949 enrolments.
- The McMaster University presents in 2009 the highest growth in women enrolment (> 100 enrolment total) at the Doctorate level: a growth equivalent to 11.0% of the 2008 value.
- At 66.6%, the Université de Moncton shows the highest proportion of women enrolled (> 100 enrolment total) at the Doctorate level in 2009.
- For men, Memorial University of Newfoundland shows the highest growth in men enrolment (> 100 enrolment total) at the Doctorate level in 2009; a growth equivalent to 12.6% of the 2008 value.
- In 2009, Quebec's École de technologie supérieure (ÉTS) shows the highest proportion of men enrolled at the Doctorate level : 83.7%.

Summary Section 3: International Graduate Enrolment

- 14,754 international students enrolled in a Master's degree in 2009, an increase of 12.4% over the previous year and an increase of 81.3% compared to 2000.
- In 2009, international students represent 13.7% of total enrolments at the Master's level.
- The institution with the largest number of international students enrolled in a Master's degree is the University of British Columbia with 1,224 foreign students.
- Royal Roads University is the institution with the highest proportion of international students enrolled at the Master's level with 37.6% (> 200 enrolment total).
- The University of Ontario - Institute of Technology presents the highest growth in international students enrolment (> 200 enrolment total and > 50 international students enrolled) at the Master's level: a growth equivalent to 142.9% of its 2008 value.

- 9,897 international students enrolled in a Doctorate degree in 2009, an increase of 13.4% over the previous year and of 113.4% compared to 2000.
- International students enrolment in a Doctorate degree represents 21.9% of total enrolment in 2009, compared to 17.4% in 2000.
- The University of Toronto has the largest number of international students at the Doctorate level in 2008, with 987 enrolments (17%).
- At 38.4%, the Institut national de la recherche scientifique has the highest proportion of international students enrolled in a Doctorate degree (> 100 enrolment total) in 2009.
- The Université du Québec à Trois-Rivières presents the highest growth in the number of international students enrolled (> 100 enrolment total and > 25 international students enrolled) at the Doctorate level, a growth of 50.0% from the 2008 value.

Summary Section 4: Enrolment by Registration Status

- 76,257 students enrolled in a full time Master's degree in 2009, an increase of 3.6% over the previous year but an increase of 59.9% compared to 2000.
- Full time students represent 70.6% of Master's degree enrolment in 2009.

- 42,963 students enrolled in a full time Doctorate degree in 2009, an increase of 6.5% over the previous year but an increase of 81.1% compared to 2000.
- Full time students represent 94.9% of Doctorate degree enrolment in 2009.

Summary Section 5: Mean age at enrolment in Graduate Studies

- The mean age at enrolment at the Master's degree in 2009 was 30.8 years old while it was 32.2 years old at the doctorate level.
- In 2009, at the Master's level, it is in "Physical and Life Sciences, and Technologies" that the students enrolled at the youngest age at 26.1 years old while "Personal, Protective and Transportation Services" shows the highest mean age at enrolment with 36.5 years old.
- In 2009, at the Doctorate level, it is in "Physical and Life Sciences, and Technologies" that the students enrolled at the youngest age at 29.7 years old while "Education" shows the highest mean age at enrolment with 41.5 years old.

Summary Section 6: Permanent address at enrolment in Graduate Studies

- In 2009, at the Master's level, when the permanent country of residence is known, the majority of students come from North America (87.0%) followed by Eastern Asia (2.9%) and Southern Asia (2.6%).
- In 2009, at the Doctorate level, when the permanent country of residence is known, the majority of students come from North America (79.3%) followed by Southern Asia (5.0%) and Eastern Asia (3.6%).

Degrees Awarded

Summary Section 7: Degrees Awarded

- 38,304 Master's degrees were awarded in 2009, an increase of 5.7% over the previous year and of 58.1% compared to 2000 (24,228 degrees awarded).
- With 3,663 degrees awarded, the University of Toronto is the institution with the largest number of Master's degrees awarded.
- Ryerson University presents the highest growth in the number of Master's degrees awarded (> 200 degrees awarded total) with an increase equivalent to 33.7% of its 2008 value (from 615 to 822).
- 5,673 Doctorate degrees were awarded in 2009, an increase of 4.6% over the previous year and of 46.9% compared to 2000 (3,861 degrees awarded).
- The University of Toronto, with 720 degrees awarded, is the institution who has awarded the most Doctorate degrees in 2009.
- The University of Calgary shows the highest growth in the number of Doctorate degrees awarded (> 100 degrees awarded total) with a growth equivalent to 24.6% of its 2008 value (from 171 to 213).

Table 7: Master's and Doctorate Degrees Awarded, 2000-2009

Summary Section 8: Men and Women Degrees Awarded

- There were 21,219 Master's degrees awarded to women in 2009, an increase of 7.0% over the previous year and of 65.3% compared to 2000.
- Women were awarded 55.4% of all Master's degrees awarded in 2009.
- The University of Toronto has awarded the largest number of Master's degrees to women in 2009, with 2,217 degrees awarded.
- With a growth of 39.4% from 2008, the Laurentian University is the institution with the highest growth of Master's degrees awarded to women (> 200 total degrees awarded).
- 83.5% of Master's degree graduates in 2009 are women at the Mount St. Vincent University (> 200 total graduates).
- For men, 17,076 Master's degrees were awarded to them in 2009, an increase of 4.0% over the previous year and of 49.9% compared to 2000.
- Master's degrees awarded to men account for 44.6% of all Master's degrees awarded in 2009.
- 2,508 Doctorate degrees were awarded to women in 2009, an increase of 4.8% over the previous year and of 58.3% compared to 2000.
- Women were awarded 44.2% of all Doctorate degrees awarded in 2009.
- The institution that awarded the largest number of Doctorate degrees to women is the University of Toronto with 360 degrees awarded.
- With a growth of 45.8% from 2008, the University of Western Ontario is the institution with the highest growth of Doctorate degrees awarded to women (> 100 total degrees awarded).
- 52.4% of Doctorate degree graduates in 2009 are women at the York University (> 100 graduates total).
- For Men, 3,168 Doctorate degrees were awarded to them in 2009, an increase of 4.7% over the previous year and of 39.1% compared to 2000.
- Doctorate degrees awarded to men account for 55.8% of all Doctorate degrees awarded in 2009.

Summary Section 9: Degrees Awarded to International Students

- 5,589 Master's degrees were awarded to international students in 2009.
- Master's degrees awarded to international students account for 14.6% of all Master's degrees awarded in 2009.
- The institution with the largest number of Master's degrees awarded to international students is the Royal Roads University with 603 degrees awarded.
- 726 Doctorate degrees awarded to international students in 2009.
- Doctorate degrees awarded to international students account for 12.8% of all Doctorate degrees awarded in 2009.
- The institution who awarded the largest number of Doctorate degrees to international students is the University of Toronto with 84 degrees awarded.

Summary Section 10: Mean age at Graduation

- The mean age at graduation at the Master's degree in 2009 was 31.8 years old while it was 35.2 years old at the doctorate level, for an average of 32.2 years for the graduate studies.
- In 2009, at the Master's level, it is in "Physical and Life Sciences, and Technologies" that the students graduate at the youngest age at 27.7 years old while "Personal, Protective and Transportation Services" shows the highest mean age at graduation with 38.9 years old.
- In 2009, at the Doctorate level, it is in "Physical and Life Sciences, and Technologies" that the students graduate at the youngest age at 32.3 years old while "Education" shows the highest mean age at enrolment with 44.7 years old.
